LEGEND FOR MAP 9 (Good Quality Agricultural Land)

Good Quality Agricultural Land

A  Crop land - Land that is suitable for current and potential crops with limitations to production which range from none to moderate levels

B  Limited crop land - Land that is marginal for current and potential crops due to severe limitations; and suitable for pastures. Engineering and/or agronomic improvements may be required before the land is considered suitable for cropping

C1; C2; C3  Pasture land - Land that is suitable only for improved or native pastures due to limitations which preclude continuous cultivation for crop production; but some areas may tolerate a short period of ground disturbance for pasture establishment

D  Non-agricultural land - Land not suitable for agricultural uses due to extreme limitations. This may be undisturbed land with significant habitat, conservation and/or catchment values or land that may be unsuitable because of very steep
