

# Section 34 reporting table: to be used by suppliers for website publication of information relating to availability of gas

## About the Gas Code

The *Competition and Consumer (Gas Market Code) Regulations 2023* (the Gas Code) commenced on 11 July 2023. The Gas Code's purpose is to facilitate a well-functioning domestic wholesale gas market with adequate gas supply at reasonable prices and on reasonable terms for both suppliers and buyers. The Australian Competition and Consumer Commission (ACCC) monitors and enforces compliance with the Gas Code.

Section 34 of Part 6 sets out a requirement for suppliers to publish information relating to the availability of gas. This section is a civil penalty provision.

See section 46 of the Gas Code which sets out a deemed exemption from the requirement in section 34 of the Code for gas EOs issued in respect of 2 or fewer persons.

The ACCC has made determinations in relation to suppliers' record keeping, publishing and reporting obligations under the *Competition and Consumer (Gas Market Code) Regulations 2023*.

The *Competition and Consumer (Gas Market Code) (Subsections 33(3), 34(3), 34(7) and 35(3)) Determinations 2023* was registered on the [Federal Register of Legislation](#) on 20 December 2023. The instrument is effective from 1 April 2024.

## How to complete

Section 34 requires that the information that must be published must be set out in a legible and prominent way. It also requires that it must be in a form approved by the ACCC in writing. This 'Section 34 table' is the form approved by the ACCC. Publication should be on the supplier website, and we draw suppliers' attention to the requirement for the information to be set out in a legible and prominent way.

This, and other approved forms are available on the [ACCC's website](#). The ACCC has also prepared a [reporting guide](#) to support supplier's compliance with these rules.

If you will be providing information on behalf of a joint venture, provide details in the table and submit a notice to the ACCC as required by s44(2) to the attention of Gas Code – Gas Markets Branch at: [gascodes@acc.gov.au](mailto:gascodes@acc.gov.au).

The ACCC welcomes feedback in relation to this approved form. The ACCC is not able to provide legal advice. Suppliers may need to seek their own legal advice about their particular circumstances.

It is an offence to knowingly provide false or misleading information to the ACCC. Refer to section 137.1 of the *Criminal Code Act 1995*.

It is an offence to knowingly produce a false or misleading document to the ACCC. Refer to section 137.2 of the *Criminal Code Act 1995*.

This form was last updated on 5 March 2024.

This table is approved by the ACCC for the purposes of section 34 (10)(b) of the *Competition and Consumer (Gas Market Code) Regulations 2023*

**PART A: INFORMATION RELATING TO AVAILABLE GAS AND EOIs**

## PART B: SUPPLIER INFORMATION

### SUPPLIER

**Legal name**

**ACN / ABN**

ARROW ENERGY HOLDINGS PTY LTD and its related bodies corporate (within the definition of the Corporations Act 2001(Cth))

ACN 141 385 293

**Trading name, if different to legal name**

ARROW ENERGY

**Registered postal address**

GPO BOX 5262  
BRISBANE QLD 4001

**Is the supplier publishing information on behalf of joint venture/s? (Y or N) Refer to subsection 44(3)(a)**

Yes

**If Y, provide legal name/s of joint venture/s**

Arrow Energy is an incorporated joint venture between Shell Energy Holdings Australia Pty Ltd (ACN 054 260 776) and PetroChina International Investment (Australia) Pty Ltd (ACN 152 953 529)

**Note:** As at 1 April 2024, all gas produced by Arrow Energy from its production leases is committed for supply under existing gas supply agreements. For this reason, Arrow Energy does not have uncontracted regulated gas that is likely to be available or intended to be the subject of any EOIs, gas initial offers or gas final offers. In certain circumstances, volumes that are unable to be taken under the terms of existing gas supply agreements (for example, due to buyer permitted interruptions) may become available for Arrow Energy to offer for supply from time to time, including via offers or trades on gas supply hubs or transaction notices under master gas supply agreements. Arrow Energy is unable to estimate such volumes, given the range of factors that may cause such volumes to become available from time to time.
