

Land Access Rules

1

Only enter a property after you have access approved by the responsible Land Liaison Officer.

5

Never undertake any activities, before entering and while operating on a property, that could compromise a landholder's safety and infrastructure or compromise Arrow's reputation, integrity and compliance obligations.

2

Comply with all landholder conditions in your approved Site Access Request and any directions from the Land Liaison Officer.

6

Always carry personal and vehicle identification showing that you are working for Arrow, a copy of your approved Site Access Request and evidence you have completed your land access induction.

3

Always engage respectfully with landholders and always report any complaints or incidents to the Land Liaison Officer.

7

Only follow directions from the landholder provided they comply with your approved Site Access Request and your Arrow scope of work. Immediately contact the Land Liaison Officer if these directions are inconsistent with your approvals.

4

Only Land Liaison Officers and authorised Arrow representatives are permitted to negotiate with landholders.

8

Never enter a property during or immediately after wet weather without approval from the Land Liaison Officer except in the case of a declared emergency.

Failure to comply with any Land Access Rules may result in disciplinary action.
