

Agricultural spraying and worker safety

April 2023

The health and safety of our community and staff is Arrow Energy's number one priority.

Arrow Energy understands that utilising herbicides and pesticides is common in the region for protecting land from invasive weeds and pests.

The aerial or ground application of these chemicals is often time critical due to weather conditions and occasionally results in spray drift adjacent to the target field.

Help us protect our people

Our operations are often amongst active paddocks which may require agricultural chemical spray.

In line with Arrow's commitment to safety, we are continually reviewing how we can best work in and around existing farming operations.

To ensure the health and safety of our staff, it is important that a planned spray event is communicated, so we can advise our staff and they can remove themselves from the field if required.

Notify us of a spray event

1. Let us know if you are planning to spray by calling or texting us on **0427 490 053** or contacting your Land Liaison Officer.
2. We will notify our ground crew so they are aware of the planned spray event and can take appropriate actions as required.

BRISBANE DALBY MORANBAH

Arrow Energy is an integrated energy company. We explore and develop gas fields, produce and sell coal seam gas (CSG) and generate electricity. Arrow has been safely and sustainably developing CSG since 2000 and supplying it commercially since 2004.

The company is working to meet demand for cleaner burning fuels through gas supply.

Arrow is owned by Shell and PetroChina (50/50).
