

Contracting opportunities with Arrow Energy

At Arrow Energy, we're committed to creating real, lasting benefits for the communities where we operate.

As our project progresses, we will need a range of specialist providers to help get the work done.

How can you get involved?

There are two main ways to work with Arrow:

- Contract directly with us, or
- Subcontract through our major contractors

1. Direct Opportunities with Arrow

Arrow contracts directly for larger, more specialised scopes of work. These typically include:

- Major construction projects
- Drilling and rig services
- Waste management
- Dam maintenance
- Rotating equipment maintenance
- Mechanical and electrical maintenance
- Supply of items such as LV gas engine pack generators and lubricants.

To view and express interest in direct opportunities:

[Visit the Industry Capability Network \(ICN\)](#)

2. Contracting through our major contractors

The majority of Arrow's procurement is delivered through a group of specialised major contractors.

They are responsible for engaging subcontractors and suppliers – and are held to strong local and Indigenous participation targets.

You can find the full list of our major contractors **here:** arrowenergy.com.au/work-with-us/supplier-portal/contracting-opportunities/

If you are a local or Indigenous business, we encourage you to:

- Contact these contractors directly
- Register your interest in working with them.

We expect our major contractors to genuinely engage with local businesses, including small and Indigenous-owned suppliers. Their performance is regularly monitored to ensure our local content targets are met.
