Miles Devils go down hard

By Kabel Dawes

Miles Devils traveled to Roma on Sunday to take on the Roma Cities Gladiators for the final games of the regular fixtures in the Roma and District Rugby League Competition.

Top of the table Miles' reserves only needed to secure a win to be outright minor premiers in reserve grade. A loss meant that the Chinchilla Bulldogs would have to defeat the St George reserve grade in St George for them to stay on top.

It was Miles Devils A Grade's last game of the season, and they were only really playing for pride, as they had finished outside the top four.

With both the A Grade and Reserve Grade Devils teams down on troops with illness, injury, and work commitments, it was always going to be a tough day in cold windy conditions at Arthur Beetson Oval in Roma, with a few of the lads playing two games.

Devils Reserve Grade went down to the Gladiators but were able to hold their spot on the ladder after the Chinchilla Bulldogs pulled off a major upset in St George, handing the Devils Reserve Grade their first minor premiership since 1986.

It was a hard-fought game but costly errors at crucial times, and a few 50/50 decisions not going the Devil's way, saw the Gladiators run out winners 58 - 26.

Coach Ryan Rayner said it was a loss the boys needed to get them back on track.

"Teams can become very complacent when they are winning all the time, and this just puts a bit of normality back into their thoughts."

The A Grade was a similar situation with almost half the regular team not available, a terrible thing to happen at the back end of the season. The Miles' lads were completely overrun by the Cities' pack punching holes in the defense and capitalising on any Miles' mistakes.

Miles Devils kicking off.

Miles Devils have lost a few games that they should have won throughout the season. They lost four games with a margin of less than eight points, where they probably should have put the points on the board and won those games.

This game was their heaviest defeat of the season going down 60 - 6.

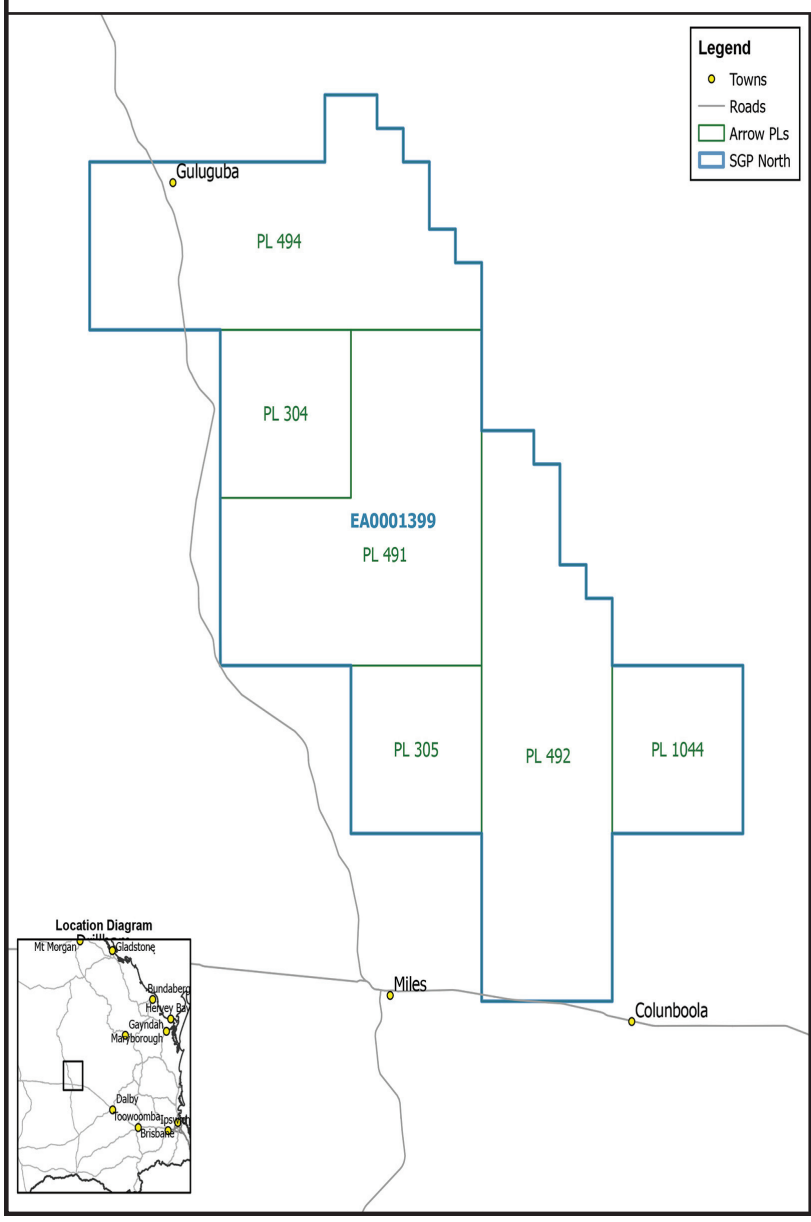

However, next year is always going to come around, and the Miles' players are gaining experience and confidence each year and will come back stronger in 2025.

The Reserves will contest the major semi final against the St George Dragons on Sunday 11 August at Bassett Park, Roma. Kick off is 1.30pm, and it is hoped that the strong and loyal supporters of the Miles Devils make the trek to Roma to cheer on the lads.

ENVIRONMENTAL PROTECTION ACT 1994 | Section 152

Application notice SGP North EA Amendment Stage 1

Resource activity: Site specific petroleum activity

It is advised that Arrow CSG (Australia) Pty Ltd has lodged an application for a major amendment to an environmental authority in accordance with the requirements of the *Environmental Protection Act 1994*. The existing environmental authority (EA) being amended is EA0001399, which applies to the following Petroleum Leases (PL): PL304, PL305, PL491, PL492, PL494 and PL1044, also known as the Surat Gas Project North (SGP North).

The application involves amendments to the existing environmental authority to authorise impacts to prescribed environmental matters and matters of state environmental significance, impacts to Category B and C environmentally sensitive areas and administrative amendments to the conditions associated with the development of 214 wells and supporting infrastructure within PL305, PL491 and PL492 (SGP North Stage 1).

The project area of SGP North Stage 1 is located to the north of Miles, Queensland. This resource activity is proposed to occur within the areas of PL305, PL491 and PL492 (refer to the map) and involves the development and continued operation of natural gas wells, pipelines and supporting infrastructure. The EA amendment application considers the inclusion of the following Environmentally Relevant Activities (ERAs) to support the SGP North Stage 1. These are:

- ERA 15 Fuel burning – Field compression station at PL305.
- ERA 14 Electricity generation – Hybrid power station at PL305.
- ERA 63 Sewage treatment – Warehouse and offices, temporary accommodation camp, and temporary mobile drilling camps at PL305 and PL492.
- ERA 16 Extractive and screening activities – Gravel pits at PL305, PL491 and PL492.

This amendment does not seek to increase the number of currently approved wells on EA0001399.

The application documents for the project consist of the properly made environmental authority amendment application form and a supporting information report with appendices.

Application documents may be inspected or accessed at:

- Arrow Energy website: www.arrowenergy.com.au/media/public-notices
- Department of Environment, Science and Innovation (DESI) website: https://environment.desi.qld.gov.au/management/activities/non-mining/regulation/environmental-authority/current-ea-applications#petroleum_and_gas_applications

Copies of, or extracts from the application documents may be made available upon request by contacting DESI at palm@des.qld.gov.au.

Any person may make a submission about the application documents during the submission period, which is from 2/08/2024 to 30/08/2024. **Submissions must be received on or before 4.30pm** on the last day of the submission period.

Submissions must be sent to:
Department of Environment, Science and Innovation
Energy and Extractive Resources Business Centre
GPO Box 2454 Brisbane QLD 4001
Email: EnergyandExtractive@des.qld.gov.au
Attention: Manager (Assessment)

DESI, as the administering authority, shall accept all properly made submissions and may accept written submissions even if they are not properly made. A properly made submission must meet all of the following requirements:

- be written or made electronically
- state the name and address of each submitter
- be made to the administering authority stated above
- be received on or before the last day of the submission period
- state the grounds of the submission and the facts and circumstances relied on in support of the grounds.
